

Dâmaris Dwayne

Frontend Developer | JavaScript | TypeScript | React | Next.js +

Belo Horizonte, Minas Gerais, Brasil

Summary

Passionate Programmer | Crafting Exceptional Code

I'm a highly dedicated programmer on an everlasting journey of self-improvement, committed to crafting extraordinary code.

My continuous quest for knowledge drives me to explore new technologies and refine my skills, ensuring that every line of code I write is nothing short of amazing!

Experiences

PensionDynamics AG

Frontend Software Engineer

junho de 2022 - Present

Zurich, Zurich, Switzerland

As a Software Developer at PensionDynamics AG, a leading Swiss company specializing in innovative software solutions for retirement management, I play a pivotal role in crafting cutting-edge websites and functionalities using React.

My responsibilities extend to the development of a robust design system that enhances the user experience and ensures a seamless interface. Key Contributions:

- Development of websites and innovative features using React, contributing to the company's mission of revolutionizing retirement management software.
- Crafting and maintaining a comprehensive design system to ensure a cohesive and visually appealing user interface across all platforms.
- Collaborating with cross-functional teams within an Agile Scrum methodology to deliver high-quality software solutions that meet the unique needs of Swiss retirement management.

BH Softwares

Frontend Software Engineer

janeiro de 2022 - junho de 2022

Ibirité, Minas Gerais, Brazil

As a Full Stack Developer at Bh Softwares, I played a key role in the creation of personalized websites and applications tailored to meet the unique needs of our diverse clientele. Leveraging the power of React and React Native, I contributed to the development of cutting-edge digital solutions that seamlessly blended creativity with functionality. Key Contributions:

- Engineered custom websites and applications using React and React Native, ensuring a personalized and responsive user experience.
- Spearheaded the creation of new features, continually enhancing the capabilities of our digital products.
- Conducted maintenance on existing functionalities, guaranteeing optimal performance and user satisfaction.

Projelet

Software Developer

junho de 2021 - dezembro de 2021

Belo Horizonte, Minas Gerais, Brasil

As a Software Developer at Projelet, I collaborated with a dynamic product team and stakeholders, focusing on maintenance and the development of new features. My primary responsibility involved leveraging C# to automate the creation of installation projects. This included the implementation of commands for Revit, streamlining the process of building projects for building installations. This innovative approach not only optimized resources but also significantly enhanced the efficiency of designers' workflows. Key Responsibilities:

- Collaborated closely with product teams and stakeholders to maintain and enhance software features.
- Developed C# commands for Revit, automating the creation of building installation projects and simplifying tasks for project designers.
- Proficiently created queries using MySQL, contributing to data management and retrieval efficiency.

MultiCrédito

Frontend Developer

setembro de 2020 - junho de 2021

Belo Horizonte, Minas Gerais, Brasil

As a Software Developer at MultiCrédito, I collaborated with a team of developers to create innovative web and mobile functionalities. Using JavaScript/TypeScript, HTML, and CSS, we constantly enhanced the digital experience for our users. Additionally, I played a vital role in modernizing Page 2 of 3a legacy system originally built with PL/SQL by leveraging Asp.NET. Key Responsibilities:

- Collaborated closely with a team of skilled developers to design and implement new web and mobile features.
- Employed JavaScript/TypeScript, HTML, and CSS to develop user-friendly and visually engaging solutions.
- Contributed significantly to the rewrite of a legacy PL/SQL system, transforming it into an Asp.NET-based platform for improved performance and maintainability.

Grupo 3corações

Assistente administrativo

abril de 2018 - agosto de 2019 (1 ano 5 meses)

Santa Luzia, Minas Gerais, Brasil

Formação acadêmica

Centro Universitário Una

Ensino Superior, Tecnologia em Tecnologia da Informação/Sistemas da Informação · (fevereiro de 2019 - julho de 2022)
